**Table of contents**

*A. Galstyan, G. Galstyan, L. Timoshyna*: Investigation of oxidation process of 3-aminotoluene with ozone in presence of manganese bromide catalyst ........................................ 3

*Yu. Kozub, G. Kozub*: Calculation of the longevity of elastomeric structural elements ........ 9

*V. Lyfar*: The information model of technogenic risk management .......................... 15

*E. Maznev, V. Malashchenko, A. Borys*: Force turning off the torque limiter ............ 21

*V. Mogila, O. Potapenko*: Analysis and Study of the Problems Arising in Movable Joints of Freight Car Bogies ................................................................. 27

*O. Porkuian, A. Timoshyn, L. Timoshyna*: Some algorithms of computer algebra .... 33

*A. Tselischev, M. Loriya, A. Ijagbuji*: Cavitation reactor installation for processing hydrocarbon ................................................................. 37

*P. Uvarov, M. Shparber*: The peculiarities of the organizational and technological designing for the construction liquidation cycle ........................................... 43

*O. Boltianskyi, B. Boltianskyi, N. Boltianska, S. Sosnowski*: Analysis of major errors in the design of pumping stations and manure storage on pig farms .................. 49

*Ya. Sokolova, Yu. Rasskazova, O. Krol, V. Sokolov*: Modeling of fluid flow in microgap considering the boundary change of dynamic viscosity .......................... 55

*K. Alahmad Almou*: Developing computer-integrated control system for reactor of nanocatalytic petroleum products refining ........................................... 61

*G. Tatarchenko, N. Biloshitska, O. Vodolazskyy*: Features of influence of some factors corrosion of carbon steel in circulating water ........................................ 65
