

## Table of contents

<b>Andrzej Baliński:</b> Effect of thermal conditioning of silica-sodium glass on the kinetics of zeta potential changes during soluble sodium silicate gelation	3
<b>Artur Boguta:</b> The wireless notification systems used in car alarm systems	9
<b>Eugene G. Busko, Sergey S. Pazniak, Sergey B. Kostukevich, Lillia A. Dudkina:</b> Perspectives of renewable energy sources use in enhancement of environmental and energy security of belarus	13
<b>Maciej Combrzyński:</b> Biodegradability of thermoplastic starch (TPS)	21
<b>Maciej Combrzyński, Marcin Mitrus, Leszek Mościcki, Tomasz Oniszczuk, Agnieszka Wójtowicz:</b> Selected aspects of thermoplastic starch production	25
<b>Dariusz Dziki, Grażyna Cacak-Pietrzak, Beata Biernacka, Krzysztof Jończyk, Renata Różyło, Bożena Gładyszewska:</b> The grinding energy as an indicator of wheat milling value	29
<b>Bożena Gładyszewska, Dariusz Dziki:</b> The change of protein and fat content in the beans seed covers during germination process	35
<b>Wawrzyniec Gołębiewski, Tomasz Stoeck:</b> Effect of high-speed traction gearbox ratio on vehicle fuel consumption	41
<b>Janusz Grzelka:</b> Determination of specific fuel consumption of IC engine in transient conditions	47
<b>Tomasz Guz, Zbigniew Kobus, Elżbieta Kusińska, Rafał Nadulski:</b> Geometric characteristics of triticale grain stored under silo pressure	53
<b>Marek Horyński:</b> Energy efficient control of lighting in an intelligent building	61
<b>Andrzej Karbowy, Adam Koniuszy, Paweł Sędłak:</b> Assessment of average exhaust emissions from a farm tractor operating in a livestock building	69
<b>Jarosław Knaga, Tomasz Szul:</b> Optimising the selection of batteries for photovoltaic applications	73
<b>Karolina Kozak, Mirosław Kozak, Jerzy Merkisz, Dawid Nijak, Bożena Wiśniewska:</b> The automotive picture of Poznań against a background of other cities and national indexes	79
<b>Ryszard Kulig, Stanisław Skonecki, Grzegorz Łysiak:</b> The effect of binder addition on the parameters of compacted POPLAR wood sawdust	87
<b>Waldemar Kurowski:</b> Fourier transformation – an important tool in vibroacoustic diagnostics	93

<b>Sławomir Kurpaska, Hubert Latała:</b> Energy efficiency of ground heat exchangers co-operating with a compressor heat pump	103
<b>Sławomir Kurpaska, Hubert Latała, Bogusława Łapczyńska-Kordon, Krzysztof Mudryk:</b> Efficiency of the heat pump cooperating with various heat sources in monovalent and bivalent systems	109
<b>Sławomir Kurpaska, Hubert Latała, Jarosław Knaga:</b> Energy efficiency analysis of flat and vacuum solar collector systems	115
<b>Elżbieta Kusińska, Agnieszka Starek:</b> Effect of fat content on the mechanical properties of texture of gingerbread pastry	121
<b>Elżbieta Kusińska, Agnieszka Starek:</b> Effect of knife wedge angle on the force and work of cutting peppers	127
<b>Piotr Kuźniar:</b> Energy of bean pods opening with phosphorous fertilization	131
<b>Piotr Kuźniar:</b> Influence of mineral fertilization on mechanical properties of the chosen elements of bean pod inner structure	135
<b>Marcin Mitrus, Agnieszka Wójtowicz, Tomasz Oniszczuk, Leszek Mościcki:</b> Rheological properties of extrusion-cooked starch suspensions	143
<b>Jaromir Mysłowski:</b> Equivalent fuel consumption of engines from swedish automotive companies	149
<b>Janusz Mysłowski:</b> The flexibility of compression-ignition engines of scania trucks	155
<b>Rafał Nadulski, Elżbieta Kusińska, Zbigniew Kobus, Tomasz Guz:</b> Effect of selected factors on grain mass creep test under simulated load conditions	159
<b>Rafał Nadulski, Kazimierz Zawiślak, Karolina Strzałkowska, Dariusz Piekarski, Agnieszka Starak:</b> The influence of thermal processing on the course of the process of pressing juice from beetroot	163
<b>Krzysztof Nęcka:</b> Analysis of higher harmonics generation by non-linear loads	169
<b>Tomasz Oniszczuk, Agnieszka Wójtowicz, Marcin Mitrus, Leszek Mościcki, Maciej Combrzyński, Andrzej Rejak, Bożena Gładyszewska:</b> Biodegradation of TPS mouldings enriched with natural fillers	175
<b>Tomasz Oniszczuk, Agnieszka Wójtowicz, Marcin Mitrus, Leszek Mościcki, Maciej Combrzyński, Andrzej Rejak, Bożena Gładyszewska:</b> Influence of process conditions and fillers addition on extrusion-cooking efficiency and SME of thermoplastic potato starch	181
<b>Tomasz Oniszczuk, Leszek Mościcki, Agnieszka Wójtowicz, Marcin Mitrus, Andrzej Rejak, Kazimierz Zawiślak, Paweł Sobczak, Jacek Mazur, A. Oniszczuk:</b> Influence of process conditions on quality and energy consumpion during extrusion-cooking of carp feed	185
<b>Marian Panasiewicz, Rafał Nadulski, Kazimierz Zawiślak, Jacek Mazur, Paweł Sobczak:</b> Influence of moisture content on selected physical properties of rape seeds and the processes of cleaning and separation	191
<b>Marian Panasiewicz, Jacek Mazur, Paweł Sobczak, Kazimierz Zawiślak:</b> The analysis of the influence of initial processing of oat caryopses on the course and energy consumption of the flaking process	195
<b>Piotr Piątkowski:</b> The impact of intake canal geometry on kinematics of load in combustion chamber	201

<b>Stanisław Pysz, Robert Żuczek:</b> The use of icme process to design a rocker arm for special-purpose vehicles	205
<b>Grzegorz Redlarski, Janusz Wojdalski, Adam Kupczyk, Janusz Piechocki:</b> Efficiency of biomass energy used for heating purposes in a residential building in comparison with other energy sources	211
<b>Andrzej Rejak, Leszek Mościcki, Agnieszka Wójtowicz, Tomasz Oniszczuk, Marcin Mitrus, Bożena Gładyszewska:</b> Influence of keratin addition on selected mechanical properties of TPS film	219
<b>Henryk Rode, Jacek Szpetulski:</b> The influence of the knife's geometric parameters on the unitary energy of a cutting process of salix viminalis	225
<b>Henryk Rode, Paweł Witkowski:</b> The study of the rotary cutting process of energy plants	231
<b>Mariusz Sarniak:</b> The application of labview software for the control of a model of a tracking photovoltaic system	237
<b>Mariusz Sarniak:</b> The method of selection of optimum fitting parameters for stationary photovoltaic systems and optimum control parameters for tracking photovoltaic systems	243
<b>Paweł Sędłak, Adam Koniuszy, Tomasz Stawicki:</b> Characteristic load states of a tractor engine under farm operating conditions	247
<b>Paweł Sędłak, Wiesław Janicki, Krzysztof Matuszak:</b> The analysis of the usability of selected stationary load cycles for the assessment of the tractor engine economy	251
<b>Wiktoria Sobczyk, Anna Kowalska:</b> The techniques of producing energy from biomass	257
<b>Tomasz Stawicki, Adam Koniuszy, Paweł Sędłak:</b> The influence of the operating conditions of farm tractors on the wear of crankshaft slide bearings	263
<b>Sebastian Styła:</b> Impact of parasite resistance on operation of ignition system in motor vehicle	269
<b>Andrzej Sumorek, Marcin Buczaj:</b> New elements in vehicle communication "media oriented systems transport" protocol	275
<b>Anna Szeląg-Sikora:</b> Regional differences in equipment of machinery park on farms	281
<b>Mariusz Szreder:</b> Hardware configuration of the unitronics m90 controllers	289
<b>Georgij Tajanowskij, Wojciech Tanas, Mariusz Szymanek:</b> Modeling of kinematics of movement on turn of a wheeled tractor with a hinge-operated drawbar on semitrailer	293
<b>Renata Walczak:</b> Quantitative time management methods in project management	301
<b>Janusz Wojdalski, Agnieszka Kaleta, Bogdan Dróżdż, Aneta Chojnacka:</b> Factors influencing the energy efficiency in dairy processing plants	307
<b>Agnieszka Wójtowicz:</b> Influence of process conditions on selected texture properties of precooked buckwheat pasta	315
<b>Waldemar Izdebski, Jacek Skudlarski, Stanisław Zajac:</b> Analysis of the significance of technological and organizational factors affecting the efficiency of agricultural tractors operation	323
<b>Edyta Zielińska:</b> Power demand in respect of environmentally friendly works carried out in motor transport facilities	331

## **List of the Reviewers**

- |                          |                         |
|--------------------------|-------------------------|
| 1. Zbigniew Burski       | 17. Andrzej Marczuk     |
| 2. Karol Cupiął          | 18. Jerzy Merkisz       |
| 3. Kazimierz Dreszer     | 19. Leszek Mościcki     |
| 4. Dariusz Dziki         | 20. Andrzej Mruk        |
| 5. Mieczysław Dziubiński | 21. Janusz Mysłowski    |
| 6. Ł Geczyk              | 22. Halina Pawlak       |
| 7. Krzysztof Gołacki     | 23. Janusz Puchocki     |
| 8. Agnieszka Kaleta      | 24. Stanisław Sosnowski |
| 9. Sławomir Kokoszka     | 25. Sławomir Stryczek   |
| 10. Józef Kowalcuk       | 26. Mariusz Szymanek    |
| 11. Sławomir Kurpaska    | 27. G. A. Tajanowski    |
| 12. Elżbieta Kusińska    | 28. Wojciech Tanaś      |
| 13. Andrzej Kusz         | 29. Janusz Wojdalski    |
| 14. Kazimierz Lejda      | 30. Tadeusz Złoto       |
| 15. Ryszard Lewkowicz    | 31. Daniela Żuk         |
| 16. Andrzej Marciniak    |                         |

Editors of the „TEKA” journal of the Commission of Motorization and Energetics in Agriculture would like to inform both the authors and readers that the agreement was signed with the Interdisciplinary Centre for mathematical and Computational Modelling at the Warsaw University referred to as “ICM”. Therefore, ICM is the owner and operator of the IT system needed to conduct and support a digital scientific library accessible to users via the Internet called the “ICM Internet Platform”, which ensures the safety of development, storage and retrieval of published materials provided to users. ICM is obliged to pull all the articles printed in the “Teka” on the ICM Internet Platform. ICM develops metadata, which are then indexed in the “Agro” database.

Impact factor of the “TEKA” journal according to the Commission of Motorization and Energetics in Agriculture is 2.35 (August 2012).
