Editors of the „TEKA” journal of the Commission of Motorization and Energetics in Agriculture would like to inform both the authors and readers that the agreement was signed with the Interdisciplinary Centre for mathematical and Computational Modelling at the Warsaw University referred to as “ICM”. Therefore, ICM is the owner and operator of the IT system needed to conduct and support a digital scientific library accessible to users via the Internet called the “ICM Internet Platform”, which ensures the safety of development, storage and retrieval of published materials provided to users. ICM is obliged to pull all the articles printed in the “Teka” on the ICM Internet Platform. ICM develops metadata, which are then indexed in the “Agro” database.

Impact factor of the “TEKA” journal according to the Commission of Motorization and Energetics in Agriculture is 2.35 (August 2012).
