

Table of contents

V. Dobroskok, A. Shpilka, M. Morneva: Evaluation of relief development of metal-bonded diamond wheel's working surface.....	3
V. Didukh, R. Kirchuk, K. Tsiz: Modeling of energy saving methods of soybean drying for oil production	9
A. Falendysh, M. Volodarets, M. Bragin, Yuri Biletskyi: Determination of implementation efficiency of hybrid shunting diesel locomotive, taking into account the type of field operation.....	15
O. Guschin, N. Cherneckaya-Beleckaya: Synergies in the motion processes of the structured aeromixtures in a pneumatic transport pipeline.....	21
I. Kirichenko, M. Morneva, A. Kashura, S. Popov: Technological standardization.....	29
O. Krol, A. Khmelnytsky: 3D-modelling and investigating of spinle's node of angular head for multyoperation tool.....	35
D. Marchenko, A. Zhidkov: Magnetometric new generation device for determination of the operability of metal structures.....	41
A. Parkhotko: Increase of efficiency of methodical maintenance of seaport work.....	47
S. Turpak: Intelligent control system of railway transport at metallurgical plants.....	53
Ye. Fornalchyk, I. Demchuk: The Formation of Transportation Route Selection Model of the Urban Population in Matlab Software Environment.....	61
L. Tishchenko, V. Olshanskyi, S. Olshanskyi: Quadratic nonlinear model of grain mixture movement in cylindrical vibratory centrifugal sifter.....	67
S. Kovalyshyn, V. Sokolyuk: Theoretical background to the definition of resolution of seed mixes in vibro electric bowl separator.....	73
O. Porkuian, O. Prokaza, K. Alahmad Almou: Control of the process of vacuum gasoil catalytic cracking in terms of aerosol nanocatalysis technology.....	77
R. Antoshchenkov, L. Tishchenko, A. Lebedev: Study of mathematical model of dynamics combined machine-tractor unit.....	81
S. Kharchenko: Modeling the dynamics of the grain mixtures with the screening on cylindrical vibrating sieve separators.....	87
V. Melnik, A. Lukyanenko: Rationale of driven element geometric parameters for herbicides applying in foam composition.....	93
V. Zubko, T. Kuzina: Investigation of the influence of winter wheat's location on plant's germination energy.....	103
V. Lopushnyak, N. Vega: Energy efficiency of growing spring barley in western steppe by foliar fedings on the background of mineral fertilizers.....	107
M. Piven: Grain Flow Dynamics on Vibrating Flat Sieve of Finite Width.....	113
I. Palamarchuk, O. Tsurkan, V. Palamarchuk: The analysis of theoretical and experimental research results of infrared vibrowave conveyer dryer main parameters.....	121
