

## Table of contents

|                                                                                                                                                                      |    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>A. Galstyan, G. Galstyan, L. Timoshyna:</b> Investigation of oxidation process of 3-aminotoluene with ozone in presence of manganese bromide catalyst.....        | 3  |
| <b>Yu. Kozub, G. Kozub:</b> Calculation of the longevity of elastomeric structural elements .....                                                                    | 9  |
| <b>V. Lyfar:</b> The information model of technogenic risk management .....                                                                                          | 15 |
| <b>E. Maznev, V. Malashchenko, A. Borys:</b> Force turning off the torque limiter.....                                                                               | 21 |
| <b>V. Mogila, O. Potapenko:</b> Analysis and Study of the Problems Arising in Movable Joints of Freight Car Bogies.....                                              | 27 |
| <b>O. Porkuian, A. Timoshyn, L. Timoshyna:</b> Some algorithms of computer algebra .....                                                                             | 33 |
| <b>A. Tselischev, M. Loriya, A. Ijagbuji:</b> Cavitation reactor installation for processing hydrocarbon .....                                                       | 37 |
| <b>P. Uvarov, M. Shparber:</b> The peculiarities of the organizational and technological designing for the construction liquidation cycle.....                       | 43 |
| <b>O. Boltianskyi, B. Boltianskyi, N. Boltyanska, S. Sosnowski:</b> Analysis of major errors in the design of pumping stations and manure storage on pig farms ..... | 49 |
| <b>Ya. Sokolova, Yu. Rasskazova, O. Krol, V. Sokolov:</b> Modeling of fluid flow in microgap considering the boundary change of dynamic viscosity .....              | 55 |
| <b>K. Alahmad Almou:</b> Developing computer-integrated control system for reactor of nanocatalytic petroleum products refining .....                                | 61 |
| <b>G. Tatarchenko, N. Biloshitska, O. Vodolazskyy:</b> Features of influence of some factors corrosion of carbon steel in circulating water.....                     | 65 |
