

Table of contents

V. Pliuhin, M. Sukhonos, A. Petrenko, A. Ehorov Implementation of genetic algorithm in electric machines optimization using Netbeans IDE and Java	5
A. Polivyanchuk, E. Skuridina, A. Kaslin Improvement of standardized method of particulate matter emission control from the exhaust gases of vehicle diesel engines	15
G. Ripka Analysis of everyday clothes usage conditions	21
V. Sokolov, O. Krol, O. Stepanova Mathematical model of the automatic electrohydraulic drive with volume regulation	27
N. Chernetskaya-Beletskaya, I. Baranov, M. Miroshnykova, S. Kravchenko, M. Bragin Some aspects improvement of industrial pipeline transport	33
Borysiuk Dmytro, Spirin Anatoly, Trukhanska Olena, Shvets Lyudmyla, Zelinskyy Vyacheslav Mathematical model of a wheeled tractor steering axle as an object of diagnostics	41
R. Humenyuk, A. Wójcik Impact of scale factor on cracking resistance of thermo stressed and output reinforcement steel	49
O. Shvets, S. Kovalyshyn Investigation of equilibrium angles of winter rapeseed on an inclined plane of an electro frictional separator and optimization of their geometrical sizes.....	53
P. Podstawka, P. Pilaszkievicz, H. Pawlak Hazards, safety and health of drivers in road transport.....	59
D. Lodwik, J. Pietrzyk Evaluation of resistance to spray drift of selected sprayer nozzles in the aspect of non-uniformity in transverse distribution of liquid.....	65
W. Malesa, M. Gapiński Application of topological optimization methods in wheelchair design.....	71

H. Rode, Ł. Czubakowski

The influence of the linear velocity of the cutting unit on the cutting process of basket willow..... 79

H. Rode, W. Markowski

A research on the cutting process of a poplar with a disk cutting unit..... 85

Nadiya Maksymenko, Anastasia Klesch, Alla Shumilova

Landscape-ecological assessment of “Volodymyrivska dacha” forestry reserve’s territory for environmental management 91
