Volodymyr Bulgakov, Janusz Nowak, Wojciech Przystupa	
Longitudinal vibrations of the sugar beet root crop body at vibrational extraction from soil	5
Zbigniew Burski, Joanna Tarasińska	
Testing an influence of the piston mass and height on the vibrations dynamics in the cylinderliner of an agricultural tractor in proecological aspect	16
Zbigniew Burski, Joanna Tarasińska	
Research on symptom sensitivity of a mechanical system state in organic dust conditions.....	25
Karol Cupiał, Janusz Grzelka, Adam Dużyński, Piotr Grzelka	
The traction survey and monitoring of a vehicle using a satellite navigation system.....	37
Jarosław Czaban, Mikołaj Miatłuk	
Identification of static characteristics of a pneumatic regulator of braking forces in vehicles	48
Dariusz Dziki, Janusz Laskowski	
Influence of selected factors on wheat grinding energy requirements	56
Leszek Gardyński	
Selected aspects of wear of the Caterpillar drive parts.....	65
Tomasz Greczanik, Jarosław Stryczek	
The concept of the bus fluid power system of the mining machine.....	72
Zbigniew Kamiński	
Distribution of breaking forces in two-axle agricultural trailers	80
Zbigniew Klernicki	
Some output parameters of indirect injection diesels running on rape biofuel under transient conditions	87
Miłosław Kozak, Jerzy Merkisz	
The mechanics of fuel sulphur influence on exhaust emissions from diesel engines.....	96
Andrzej Kuranc	
A continuous measurement of CO, CO ₂ , HC and NO _x at the work of a combustion engine fed with petrol in unstable thermal conditions.....	107
Elżbieta Kusińska	
Impact of storage conditions on geometrical parameters of triticale grain.....	116
Kazimierz Lejda	
Numerical and experimental analysis of injection process in diesel engines for supply system equipped with in-line injection pump	125
Rafał Longwic	
Analysis of the chosen parameters of combustion process for a 4C90 engine running in transient conditions with additional loading	136
Ryszard Michalski, Arkadiusz Rychlik, Sławomir Wierzbicki	
Hybrid decision-making system	144

Marcin Mitrus	
Changes of specific mechanical energy during extrusion cooking of thermoplastic starch.....	152
Krzysztof Olejnik	
Agricultural tractor driver's limitations of visual transmission in aspect of road safety in Poland	158
Jan Pawlak	
Tendencies on the Polish tractor market	168
Wiesław Piekarski, Grzegorz Dzieniszewski	
Evaluation of the technical state of an engine prc system by means of fumes contents.....	177
Simion Popescu, Ilie Dumitru, Sorin Boruz, Stanisław Sosnowski	
Apparatus and method for experimental research on the dynamics of tractor - front loader sys- tems	192
Tomasz Słowik, Wiesław Piekarski, Halina Pawlak	
Wayside relief and concentrations of selected heavy metals ions caused by motor industry insoil	198
Joanna Tarasińska	
Estimation of a smali fraction under normality	205
Arvids Vilde, Wojciech Tanaś	
Determination of the soilfriction coefficient and specific adhesion	212
Stanisław Walusiak, Mieczysław Dziubiński, Wiktor Pietrzyk	
An analysis of hydraulic braking system reliability	217
Jacek Wasilewski	
The influence of regulation parameters change in a fuel injection system on NO _x emission levels in combustion gases of a tractor engine.....	226
Grzegorz Wcisło	
Determination of rapeseed oils combustion heat in calorimeter bomb and an assesment of the heat value	233
Anatoliy Yakovenko, Leonid Pietrov, Stanisław Sosnowski	
The possibilittes of Caterpillar tractor towards energy-sowing.....	240
Kazimierz Zawisław	
Efficiency of operation of transportation enterprises at different ownership	248
Zbigniew Żebrowski	
Modelling and simulation tests of switching on front drive axle at farm tractor	254
