

Spis treści

Andrzej Ambrozik, Wiktor Danilczyk, Stanisław Kruczyński	
Energy balance for a three-way catalytic reactor	5
Aivars Cesnieks, Arvids Vilde, Wojciech Tanaś	
Research on plant spacing relationships and yields of crops by sowing seeds at exact intervals.....	15
Józef Grochowicz, Dariusz Andrejko	
Effect of the moisture content on energy consumption at grinding of lupine seeds.....	22
Konstanty Juziuczuk, Zbigniew Kamiński	
Modeling of dynamic forces of a tractor and three-point hitched implement in the Matlab-Simulink program environment.....	29
Ruslan Kirchuk, Volodymyr Didukh, Krzysztof Plizga	
Investigation of roli drying efficiency	34
Józef Kowalczyk, Janusz Zarajczyk	
Quality assessment of carrot seeding using precision belt seeder SOI 1 Alex.....	41
Stanisław W. Kruczyński, Andrzej Ambrozik, Wiktor Danilczyk	
Assesment of operating characteristics of fuels for diesel engines	46
Krzysztof S. Kubacki	
Should we always use the mean value?	55
Ryszard Kulig, Janusz Laskowski	
Effects of conditioning methods on energy consumption during pelleting.....	67
Elżbieta Kusińska	
An influence of outer energy on moisture content distribution in rye grains stored in a model silo	75
Mikołaj Miatluk, Jarosław Czaban	
An analysis of transient processes in pneumatic brake system with automatic regulator of brake forces of automotive vehicles	85
Ignacy Niedziółka, Mariusz Szymanek	
An estimation of energy input in the process of sweet corn kernels harvesting and cutting	94
Ilya Nikolenko, Eugeniusz Krasowski, Victor Nikolenko	
Increases of nominal pressure at hydraulic unloading of the swinging unit in the axial-piston hydromachine.....	102

Leszek Piaseczny	
A simplification of machinery seating on an example of marine diesel engines.....	109
Simion Popescu, Ilie Dumitru, Sorin Boruz, Zbigniew Kiernicki	
Elaboration the mathematical models to obtain the optimum performace of the agricultural tractor engine.....	117
Andrzej Rejak, Leszek Mościcki	
Biodegradable foil extruded from thermoplastic starch.....	123
Andrzej Roszkowski	
Agriculture and fuels of the future	131
Adolfs Rucins, Arvids Vilde, Wojciech Tanaś	
Forces acting on aplough body.....	135
Paweł Sobczak	
Energy consumption of the crumbling process	146
Sergiy Umiński, Anatoliy Yakovenko, Stanisław Sosnowski	
An influence of tool gearings parameters on the parameters of accuracy at the proc- essing by rolling methods	152
Arvids Vilde, Wojciech Tanaś	
Energetic estimation of soil tillage machines	160
Jacek Wasilewski	
An analysis of smoke emissions from arape biofuel fed tractor engine.....	169
Grzegorz Wcisło	
Application of the cold stamping method forrapeseed oil extraction	175
Sławomir Wierzbicki	
Diagnosing microprocessor-controlled systems	182
Tadeusz Złoto	
Measurement methods of selected parameters in an axial piston pump by means of a computer measuring system.....	189
