

Spis treści

Diploma for Prof. Eugeniusz Krasowski	5
Karol F. Abramek	
An attempt at an analytical description of blow-by intensity to a crankcase	7
Andrzej Ambrozik, Tomasz Ambrozik, Piotr Łagowski	
The influence of hydrocarbon fuels and biofuels on self-ignition delay period	15
Sławomir Bednarczyk, Jarosław Stryczek	
Plastic cycloidal gears applied in hydraulic machines.....	24
Victor Belodedov, Paweł Nosko, P. Fil, Valeriy Stavitskiy	
Parameter optimization using coefficient of variation of intervals for one-seed sowing apparatus with horizontal disk during maize seeding.....	31
Janusz Bowszys, Jarosław Tomczykowski	
Self-segregation of maize kernels during gravitational discharge from a silo	38
Teresa Bowszys, Wiera Sądej, Jadwiga Wierzbowska	
Use of agricultural and communal waste products in fertilization of oilseed rape grown for biofuel.....	43
Marcin Buczaj, Andrzej Sumorek	
Simulation of motor vehicles instrument panels in labview environment	51
Marcin Buczaj, Stanisław Walusiak, Wiktor Pietrzyk	
Diagnostic assessment of technical condition of the shock absorbers in automotive vehicles in a selected diagnostic station	59
Volodymyr Bulgakov	
The driving theory of the combine-harvester for gathering flax.....	67
Zbigniew Burski, Joanna Tarasińska	
Application of correlation analysis in proecological evaluation of influence of gabarit-mass modification in tractor engine's piston on vibration dynamics of a cylinder liner	74
Wołodmyr Didukh, Ruslan Kirchuk	
Optimization of immovable material layer at drying	81
Kazimierz A. Dreszer, Tadeusz Pawłowski, Paweł Zagajski	
The process of grain relocation with screw conveyors.....	86
Mieczysław Dziubiński, Stanisław Walusiak, Wiktor Pietrzyk	
Testing of an ignition system in a car run on various fuels	97
Leszek Gardyński	
Lubricate properties of bio-fuels	105
Marek Horyński	
Intelligent electric systems in urban traffic control.....	110
Ryszard Konieczny	
Modelling of pulverising aerator operation parameters.....	116

Adam Koniuszy	
Balancing of working indicators of agricultural tractor as the way to improve the efficiency of farming.....	122
Miłosław Kozak, Jerzy Merkisz	
Some considerations on the oxygenated fuels for diesel engines	129
Elżbieta Kusińska	
Influence of moisture content on temperature distribution in triticales grain during layer filling of a silo.....	137
Kazimierz Lejda, Artur Jaworski	
Start of liquid lpg sequential injection influence on the selected useful and ecological parameters of si engine	145
Janusz Mysłowski, Marek Małkowski, Mirosław Uzdowski	
Ecological aspects of diesel works.....	157
Sergiy Pastushenko, Kostyantyn Dumenko	
Engineering of obtaining vegetable pepper seed	163
Leonid Petrov, Anatoliy Yakovenko, Olena Chumak, Wojciech Tanaś	
Elements of the draught vehicle kinematical model theory	175
Leonid Petrov, Anatoliy Yakovenko, Olena Chumak, Stanisław Sosnowski	
The senior lecturer Petrov's propeller effect in professor Yakovenko's interpretation..	185
Wiktor Pietrzyk, Marek Podleśny, Stanisław Walusiak	
Test stand for recording an effect of operation conditions on injector opening time....	192
Adolfs Rucins, Arvids Vilde, Janusz Nowak	
Impact of the share inclination angle on the ploughing resistance.....	199
Mariusz Szymanek, Paweł Sobczak	
Factors influence on energy consumption of disintegration sweet corn cob	210
Georgiy Tayanowskiy, Wojciech Tanaś	
Distribution of loadings in transmission traction power means with all driving wheels and with system of pumping of trunks at work with hinged instruments	217
Georgiy Tayanowskiy, Jurij Atamanov, Wojciech Tanaś	
Imitating model of the agricultural tractor unit for research of dynamic loadings in transmission and smoothness of motion	225
Józef Turzyński, Edward Czekaj	
Implementation of modern materials and foundry techniques in wind power energetics.....	236
Sergiy Umiński, Anatoliy Yakovenko, Wojciech Tanaś	
Influence of tooth gearing parameters on furnish accuracy of the surfaces of preparation and the tool	243

Arvids Vilde, Guntis Sevostjanovs, Janusz Nowak	
Theories of friction and their applicability to soil	250
Voytyuk Valeriy	
An analysis of operational reliability of the work of a technical object	261
Stanisław Walusiak, Wiktor Pietrzyk	
Diagnostic evaluation of electrical equipment in automotive vehicles	266
Janusz Wojdalski, Bogdan Drożdż, Michał Łubach	
Factors influencing energy consumption in fruit and vegetable processing plants	277
Viktoria Zheglova, Ilya Nikolenko, Stanisław Sosnowski	
Researches of geometrical parameters of the rotary allocator of variable displacement axial piston hydromachine	286
Tadeusz Złoto, Arkadiusz Nagórka	
Analysis of the pressure distribution of oil film in the variable height gap between the valveplate and cylinder block in the axial piston pump.....	293
Tadeusz Złoto	
Analysis of the hydrostatic load of the cylinder block in an axial piston pump	302
Jerzy Żebrowski, Zbigniew Żebrowski	
Analysis of the planetary gear of Ravigneaux type and its application in agricultural tractors	310
Zbigniew Żebrowski	
Hybrid gears in farm tractors	321
