

Spis treści

Dariusz Andrejko, Beata Ślaska-Grzywna

An influence of heating using IR radiation on pea seeds moisturizing process..... 7

Zbigniew Burski

Clustering of legislative security of car utilization in aspect of efficiency of performance of national administrative agencies in Poland..... 19

Zbigniew Burski

Standardization of a vehicle's power effectiveness on the basis of an indicator of similarity of speed distribution..... 27

Zbigniew Burski

Utilization of agglomeration algorithm (tree clustering) in research on criminality in motor transport in Poland 35

Georgiy Cherevko, Wolodymyr Snitynskyj, Oleg Krupych, Wolodymyr Kowaliw, Denys Cherevko

Chances and challenges of biofuel production development in Ukraine in the context of agriindustrial complex competitiveness..... 43

Krzysztof Danilecki

Model of turbo-charging with pulse supply of turbine 51

Krzysztof Danilecki

Simulation assessment of operation rates of an engine with sequential turbo-charging..... 61

Sergey Fedorkin, Nikolay Lyubomirskiy, Mihail Lukyanchenko

Optimization of the process of lime systems carbonization as an efficient way of reducing energy intensity of carbonaceous construction materials production..... 69

Alexander Golubenko, Dmitry Marchenko

Features of diagrams of phases and anomaly of structures of dynamic systems during degradation of their properties 77

Marek Horyński

Heating system control in an intelligent building 83

Zbigniew Kobus, Tomasz Guz, Elżbieta Kusińska

The use of pulsed acoustic field for extraction of bioactive compounds from roots of valerian (*Valeriana officianalis* L.)..... 89

Jarosław Knaga

Energy efficiency of small, compressor assisted air-water type heat pumps 99

Adam Koniuszy

Usability analysis of static load cycles for assessment of tractor engine operation economy 107

Ryszard Kulig, Janusz Laskowski

Energy requirements for pelleting of chosen feed materials with relation to the material coarseness 115

Elżbieta Kusińska

Hydraulic resistance of air flow through wheat grain in bulk 121

Elżbieta Kusińska, Kazimierz Zawiaślak, Paweł Sobczak

Energy consumption of maize grain crushing depending on moisture content..... 129

A.V. Kuzmitski, W. Tanaś

Ground stress modeling..... 135

Kazimierz Lejda, Artur Jaworski

Influence of liquid LPG injection change pressure on the injection control..... 141

Maciej Lisowski

Analysis of dynamic supercharge influence on economical engine work indexes..... 149

Ignacy Niedziółka, Mariusz Szymanek, Andrzej Zuchniarz, Kazimierz Zawiaślak

Characteristics of pellets produced from selected plant mixes..... 157

Yuriy Osenin, Igor Sosnov, Oksana Sergienko

An influence of abrasive particles on the characteristics of cohesion
in wheel-and-rail contact 163

Marian Panasiewicz, Kazimierz Zawiaślak, Elżbieta Kusińska, Paweł Sobczak

Purification and separation of loose materials in a pneumatic system
with vertical air stream 171

Leonid Petrov, Anatoliy Yakovenko, Victor Orobey

Theory of support application for higher gravitational quality indicators in wheel tractors..... 177

Krzysztof Plizga

An evaluation of the technical state of a starter using the Hall effect- part I 185

Czesław Puchalski, Józef Gorzelany, Grzegorz Zagula, Gerald Brusewitz

Image analysis for apple defect detection 197

Yaroslav Semen, Oleg Krupych, Roman Shevchuk, Georgiy Cherevko

Energetic analysis of the efficiency of hydraulic drive of cable shaker..... 207

Valentin Shishov, Pavel Nosko, Pavel Fil, Alexandr Muhovaty, Julia Sklyar

Parametrical optimization of worm gears based on losses in gearing..... 213

Zbigniew Stropiek, Krzysztof Gołacki

Effect of mass on impact parameters of apples 223

Sebastian Styła, Stanisław Walusiak, Wiktor Pietrzyk

Computer simulation possibilities in modelling of ignition advance angle control
in motor and agricultural vehicles..... 231

Mariusz Szymanek

Energy-consumption at sweet corn threshing 241

Mariusz Szymanek

Modeling of demand for energy during sweet corn kernel cutting from the cob..... 247

Georgij Tajanowskij, Wojciech Tanaś, Alexander Tajanowskij

Operating conditions of wheel drives of active semi-trailers 257

Georgij Tajanowskij, Wojciech Tanaś, Alla Kalina

Mathematical model of a harvest combine for the reception of fuel chips
from fast-growing plants 267

Joanna Tarasińska, Zofia Hanusz

Remarks on the faulty regression in Excel..... 277

Genadiy Topilin, Sergiey Uminski, Anatoliy Yakovenko

Biodiesel fuel for agricultural machinery..... 283

Małgorzata Trojanowska

Alternative methods of estimating rural consumers' daily demand for electrical energy 287

Mikołaj Ututov, Oleksiy Karpov, Pavlo Tkach, Pavlo Karpov

Circular-screw gears with asymmetric function of transmission ratio 293

Janusz Wojdalski, Bogdan Drózd, Hieronim Brocki

Effectiveness of electrical energy and water consumption
in a small-size dairy processing plant 303

Agnieszka Wójtowicz, Leszek Mościcki

Energy consumption during extrusion-cooking of precooked pasta..... 311

V.M. Zheglova, I.V. Nikolenko

Analytical substantiation of geometrical parameters of the valve plate hydromachine 319
